**NICHRIST INSTITUTE**

*With Determination Comes Success*

## NIMET

**Course: Civil Engineering (National Certificate)**

**Duration: 1 Year Theoretical Training**  
**: Offered on Full time and Part time**

This course will develop you to be proficient and understand all its functions on how to use it in the Industry in different Business world applications. You will be able to design (buildings, roads and structures), manage projects and work effectively in engineering field. The qualification will enable you to advance your studies anywhere in the world.

**Admission Requirement:**

Completed Grade 9 and or Grade 10 certificate

**Course Content: 1 Year of Theoretical Training**

<b>1<sup>st</sup> Trimester – N1</b>	
Mathematics	
Building Science	
Building Drawing	
Supervisory Management	
<b>2<sup>nd</sup> Trimester- N2</b>	
Mathematics	
Building Science	
Building Drawing	
Supervisory Management	
<b>3<sup>rd</sup> Trimester – N3</b>	
Mathematics	
Building Science	
Building Drawing	
Supervisory Management	
<b>Careers path</b>	
Civil Engineering	Architectural Engineering
Structural Engineering	Building Engineering
Business Management	Project Management

- On successful completion of 1 year as per programme, the student will receive **N1, N2 and N3 Certificate** from the Department of Higher Education.
- Course fees: **R1500 per Subject**. These study fees **do not** include the cost for study material.
- **We assist with application for Trade test**
